FRED B. ADAMS,
Treasurer of School District.

February 15, 1894.

We have examined the foregoing report and find the accounts correctly cast and properly vouched.

C. H. GILLINGHAM,
HENRY V. LITTLE,

Auditors.

REPORT OF SCHOOLS.

NORTH DIVISION.

Miss Emogene Burrille, of Warner, teacher for the year. A graduate of the normal school, she brought with her the experience acquired there. The new methods taught awakened an enthusiasm among the pupils that was very beneficial.

She has that compound so seldom found in teachers, made up of tact, perseverance, and patience, and is a wonderfully successful teacher. Good progress was made in all the branches taught, but in a marked degree in arithmetic and the primary classes in reading.

We are pleased to record that a large part of the parents have visited the school during the year, thus giving encouragement to both teacher and scholars. D.

CENTRE DIVISION.

Miss Lizzie F. Peaslee, of Bradford, teacher for the year.

Miss Peaslee is a teacher who has already established a good record in this town, which she kept well up to the standard the past year. Good improvement was made in all branches taught, especially in the complete geography. The exhibition of spelling at the closing examination, by the primary class, was one of which they may well be proud. A good disciplinarian, very marked improvement was made in the order of the school. In this division, also, the parents showed their appreciation of a good school by a large number of them visiting it during the year. D.

OLD SOUTH DIVISION.

The second term of eight weeks and the third term of seven weeks were under the instruction of Miss Mary E. Sawyer.

Her government was impartial; her efforts a success. Seldom should we expect to find so much improvement with a young teacher. J.

SOUTH DIVISION.

Miss Abbie Peaslee, teacher for the first term of eight weeks.

It needs no praise to recommend one who has been as long tried as teacher and not found wanting. J.

BURPEE DIVISION.

The first term of eight weeks was taught by Miss Mary A. Gillingham.

This was her first effort, and, under all circumstances, proved quite a success. The school appeared well.

The second term of eight weeks, and the third of six, Miss Nellie D. Pressey, teacher. The order and studiousness of the pupils is rarely excelled.

Both terms alike successful, only as the third was marred by sickness in the district.

Good progress in all studies, especially history. J.

POPLAR DIVISION.

Second and third terms, Miss Addie V. Powers, of this town, teacher.

This school was badly broken up by sickness, but there was evidence of honest, faithful work on the part of both teacher and scholars, and the result was most gratifying. Very excellent improvement was made in arithmetic. Good order was maintained.

Something should be done to make this school-house warmer, as the floor is in a condition that is uncomfortable for both teacher and pupils. D.

EATON DIVISION.

The first term of nine weeks was under the instruction of Miss Edith B. Morgan. We find this teacher well adapted to her work, and wonder how, with only four pupils, so young, she could maintain the interest she did.

The second term, eight, and the third, seven weeks, was taught by Jenny G. Colby.

An increase in number of pupils to seven made the school more interesting. The teacher was well adapted to her work.

Advancement in each term satisfactory.

J.

The first term in the Old South Division, Mrs. Carrie E. Johnson, teacher; the second and third terms in the South Division, Miss Lucy J. Andrews, teacher; the first term in the Poplar Division, Mrs. Emma F. Cheney, teacher; the first term Miss Mabel L. Colby, teacher, and the second term Miss Mary A. Gillingham, teacher, in the Mountain Division; the first term Miss Eva P. Marshall, teacher, the second and third terms Miss Ida M. Hazen, teacher, in the Gore Division,—were under the supervision of Joseph Johnson. We regret that, at the time of his death, he had not written his reports of these schools. Neither did he leave any minutes that would aid us in writing them. But in conversation with him he has told us that the schools under his charge were very successful.

GENERAL REMARKS.

There have been two hundred and nine weeks of school in town the past year, one hundred and forty-five scholars, eighty-four boys and sixty-one girls. The number of children in town between the ages of five and fifteen, by the selectmen's enumeration in April, 1893, was one hundred and nine, sixty-two boys and forty-seven girls.

We consider the schools the past year have been very successful, and credit is due to both teachers and scholars.

There is a tendency among some of the parents to allow their children to leave school for some trifling cause. This has a demoralizing influence on the scholars. If parents would see higher results from the money expended for school purposes, they should earnestly support the teacher in every effort for its improvement.

Respectfully submitted,

HOWARD JOHNSON,

MARY A. DAVIS,

School Board.

Sutton, N. H., Feb. 15, 1894.
